

# ***BULLFROG YACHT TENDER 11.5***

*No inflating, no deflating, no worries.*

# ***THE BULLFROG INNOVATION: An Unprecedented Combination!***

---

The **YACHT TENDER 11.5** has a 5' 6" beam. With 30 hp Honda outboard mounted, it's 12' 7" long and weighs 698 lbs. fully fueled.

---

**Built to be  
Beached!**

The innovative design of Bullfrog Boats combines the unsinkability of foam-filled construction, the stability of a wide-stance platform, and the durability of a polyethylene flotation collar with an aluminum hull. The result is a unique combination of three abilities.

**UNSINKABILITY.** Foam-filled construction keeps a Bullfrog afloat under the most extreme conditions, even if capsized, punctured or swamped. No inflating, no deflating, no worries.

**STABILITY.** The solid, wide stance of a Bullfrog makes getting on board and off a sure-footed experience. The semi-deep V-hull provides a dry, stable ride.

**DURABILITY.** Bullfrog's polyethylene flotation collar has five times the impact resistance of fiberglass, and the marine-grade aluminum hull is built to be beached.
